*"Sudden downpour and no umbrella? Stay dry and comfortable using Petrichor. Petrichor is your mobile helper to get you out of the rain and under a roof"*

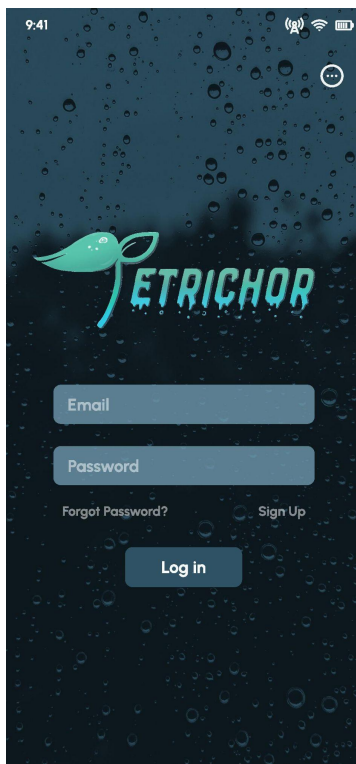

## SIGN UP

Upon opening the app, you are taken to the Signup screen where it asks you for your email, your preferred username within the app, as well as a password unique to you.

The email must currently exist as it would ask for verification. Username must not contain any obscenities as it does not bode well for the brand.

## LOGIN

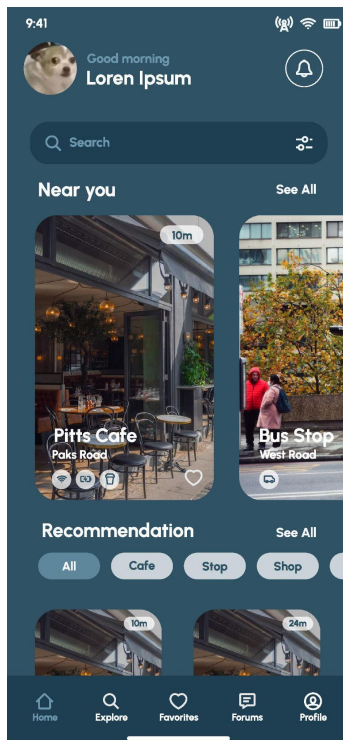

When you have successfully created your account, you are able to log into the app. It only requires the email and password you registered within the sign up interface.

You are still able to access the signup screen if you wish to create another account or if you have not yet created one.

In the event where you do not recall your password, you are given the chance to change it to a more familiar one once you have verified yourself through the email you registered.

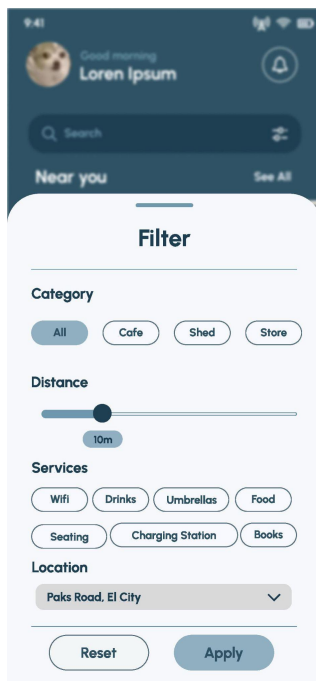

## DASHBOARD

Upon log in or successfully signing up, you are then taken to the dashboard where you are able to see places near your set location as well as recommendations of places to wait in, you are also able to toggle the type of place using a quick filter above the recommendations

You are also able to search places and streets using the search bar in order to see the surrounding places.

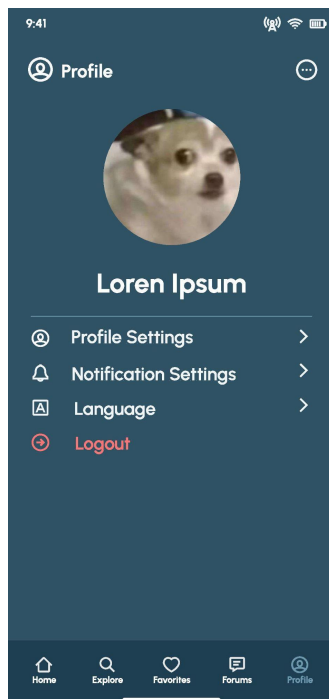

## FILTERS

You can access the filter via the search bar or the pull up menu. Here, you are able to specify the optimal location using your preferences in building, distance, services and location.

You are also given the chance to reset the filters if your preferences have changed.

## PROFILE

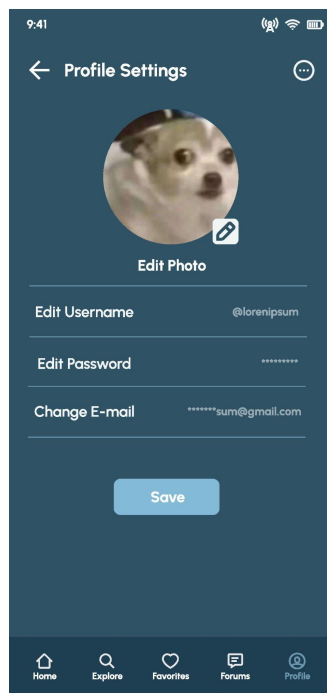

You are able to access the profile by clicking on your profile picture on the top left corner of the dashboard.

You are given 4 options to choose where to proceed, it is still possible to go back by swiping up to reveal the bottom navigation panel of their phone which contains the back and home button.

Here, you are able to go to profile settings to change your profile information or log out of your account.

## PROFILE SETTINGS

You are able to access the profile settings via the profile screen as it is listed as one of the options.

Here, you are able to change the image you use as a profile picture within the application as well as edit the information you registered for signing up.

You may save the changes you entered or simply click the back button on the top left corner to retain their initial information.

## MAP

You can access the map via the bottom navigation panel or the search bar.

Here, you are able to look for the exact location of the place you wish using the map as well as get directions of its address.
